

911 Medical Information Form

Shelby County Emergency Management and 911 maintains a database of residents within the E911 System. That system allows the placement of information which may be beneficial to emergency response personnel. When a 911 call is placed dispatchers will have access to information which could prove lifesaving. Examples would include diabetes, heart conditions, respiratory ailments requiring constant oxygen, or residents with disabilities requiring specialized equipment. This information remains confidential and is never used for any other purpose.

By completing the following information, you will be able to take advantage of this system. There is no fee or cost for this service. The information will be updated by 911 personnel on an annual basis, by contacting you directly.

First Name: _____ Last Name: _____

Street Address: _____ City: _____ ZIP: _____

Telephone Number: _____

Do not include things that may change, such as medications, doctors, or hospitals.

We request the following information to be added to our 911 database record. Yes _____ No _____

Signature

Date

Add your information here!

You may be contacted to confirm the information or if we require any clarification.
